

Voluntas

VOLUNTEER
MANAGEMENT
SYSTEM

*The easy, safe,
effective way
to take your
volunteer program
to the next level.*

Say hello to Voluntas— a comprehensive Volunteer Management System (VMS) designed to simplify and digitize

the volunteer application, clearance, management and tracking processes for K-12 schools and school districts.

Voluntas automates and dramatically simplifies school volunteering by providing a self-service

online portal for school volunteers. With a few mouse clicks, volunteers walk through the clearance process and assign themselves to events and projects while school administrators significantly improve the tracking and volunteer management process.

Voluntas eliminates paper forms and spreadsheets, significantly increasing efficiency and reducing

staff effort and risk from errors and omissions. Most districts see an increase in parent engagement of 4 to 10 times previous years, enriching the educational experience for students, leading to higher student achievement, and improving the local quality of education.

“Voluntas has relieved me from a pile of paperwork. I can quickly search the online, up-to-date report and have confidence that our parent volunteers have met our requirements to drive or chaperone our students.”

— Volunteer Coordinator, San Ramon Valley School District

Discover the powerful features designed to save time, enhance safety, and boost volunteer engagement in your school or district.

Benefits:

Voluntas is affordable and cost-saving. Voluntas has base pricing that makes the platform accessible and affordable for any size school or district. This fully automated system takes the burden of volunteer application processing, background checks, file management and communication tasks off of administrators and school personnel, saving time and money in administration expenses.

Voluntas is user-friendly. Voluntas provides everything in one place, operating with a user-friendly online interface so volunteers can apply for roles, complete background checks, fulfill unique requirements, and track their involvement seamlessly. Convenient and easy online onboarding, sign-ups and communication fosters a positive, repeat-worthy volunteer experience.

Voluntas offers peace of mind. Voluntas facilitates thorough and customizable background checks that ensure the safety and security of students with whom volunteers interact. These checks adapt to the unique needs of each school activity or event, providing administrators and parents with reliable volunteer vetting.

Voluntas is sustainable. Voluntas enables the transfer of a parent's volunteer information, checks, and history to the next site when their child progresses to a new educational level (e.g. elementary to middle school). This feature enhances volunteer retention efforts and reduces the need for parents to repeat application processes.

Features:

Customizable, adaptable, and scalable. Voluntas can accommodate the unique needs of each school or district, from field trip organization to classroom support to mentorship opportunities at any size, and any grade level. Plus, its scalability accommodates growth in volunteer engagement, making it a robust solution for schools of all sizes.

Safe and secure. Voluntas provides official clearance checks of volunteers as required by law and/or school district policy, automated expiration notices for key requirements such as fingerprinting, driver license, insurance, Covid vaccine verification, etc. The system also uses high-level security/encryption information management and removes physical file management issues through paperless processing and record-keeping.

Built in volunteer outreach and communications capacity. Voluntas provides enhanced mass messaging capabilities, allowing administrators direct contact with volunteers on a widescale, event-specific or individual level.

Volunteer data tracking. Voluntas keeps records for every step of the volunteer process and can provide analytics and statistics for reporting purposes such as volunteer hours needed for grant applications or non-profit partnerships.

Live, expert support. Voluntas is supported by live, accessible staffing. The support team is dedicated to providing fast responses and continuous updates to ensure smooth operation.
